

Fluent in Five

Daily Arithmetic Practice
Week 20

Year 2

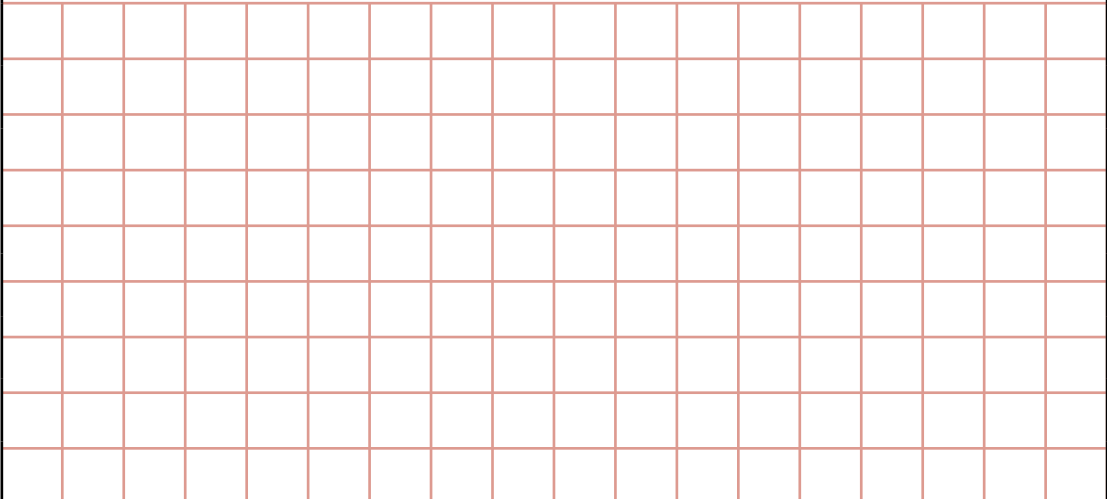

Year 2 - Week 20

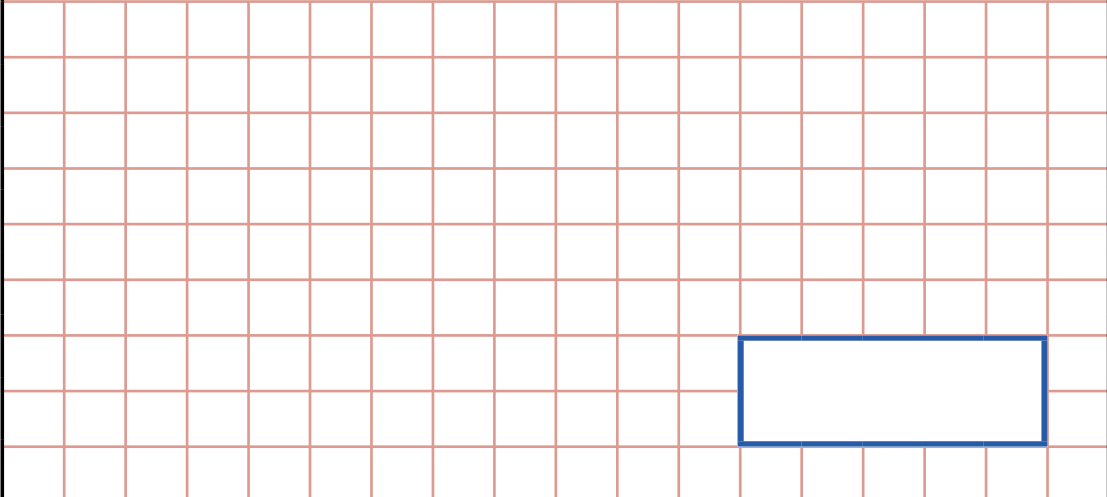

Please note, we recommend reading 'Your Guide to Using Fluent in Five' before using these resources with your class.

This week in a nutshell

This week, the focus of Fluent in Five remains on more complex multiplication and division. Children will therefore continue to be exposed to a range of multiplication and division questions, including those which are presented in non-traditional ways.

As usual, children will also continue to face questions which cover the full range of Year 2 addition, subtraction, multiplication, division and fractions.
