Make Mulch Home

Nestled between the islands of Twaddle and Stench, above the cliffs of the Great NortheastSouthwestern Sea, this island is so entrancing that nobody ever leaves!

Begin your exploration at the port, where you might spot a fishing boat cast off in search of the island's marine speciality: shoe fish. Sample it for yourself at the nearby market, stroll around the park or visit one of the island's other attractions: Envy's Emporium, the old fort ruins or the magnificently opulent Kitty Litter Castle.
